

Take your business to the next level of performance with SAP HANA and Culex

SAP Business One

The **SAP Business One** application with **SAP HANA** can help your business maximise margins and growth.

With this pioneering platform, you can immediately analyse growing volumes of information, and achieve the benefits of fast application performance, without complicating your business's IT environment.

With SAP HANA's new embedded analytics and high-performance applications, all areas of your business can operate more effectively, and more efficiently.

- Utilise the power of SAP HANA to increase performance and flexibility, while reducing IT costs
- Analyse growing volumes of data instantly to streamline business processes and improve decision making
- Operate your business on a single, affordable enterprise solution that will scale as your business develops
- Dramatically improve responsiveness of planning, sales, production, and financial processes
- Single software platform that simplifies IT administration across your business
- Unmatched performance gains as more users access the software concurrently

About CULEX

Culex is an independent solutions provider specialising in the implementation and development of SAP Business One.

We have offices in Chester, Cambridge, and Galway and have undertaken projects with a variety of companies, from small single sites to pan-European roll-outs.

Our extensive business experience and software expertise enables us to consistently deliver a service of the highest quality, which in turn, enables our clients to maximise their return from their software investment.
